Anna Rose Lane	Hideaway Village	Twice As Loud	Extreme Noise Dist	2/9/17 12:00 PM	Hideaway Village in Bourne experienced truly incredible noise levels today. The turbines were absolutely flying, it was a bit unsettling even driving down Head of the Bay. The conditions today are horrendous - we are in a true blizzard - the state is in a weather emergency. How can these turbines be running at full clip under these conditions? The sound is very loud and electrical, as though you put tennis balls into a large dryer and left it on for hours.

Anna Rose Lane	Hideaway Village	Louder	Annoyance	3/14/17 10:00 AM	Turbines are very loud- with the snow we are all stuck inside and the noise is constant. Again it's a major cause for concern that the turbines continue to operate in ice and snow conditions. I'd like to reiterate in a snow emergency it's unfathomable these continue to operate at what seems like full power. Another terrible day as Keith Mann's neighbor.

Karen Gidibes					This is Easter Sunday, an important day in our household. We have guests who are watching TV on the second floor. The television volume is turned up loud in order to overpower the sound of the turbines. The disruption from this noise nuisance is less on the first floor, probably due to tree and shrub barriers, and the background of the washing machine and refrigerator running, as well as music playing. All of which is impacted by the screaming television volume on the second floor, turned up to drown out turbine noise.

Anna Rose Lane	Hideaway Village	Louder	Nausea	5/20/17 6:00 AM	The FGW turbines continue to produce noise conditions that are causing lack of sleep, nausea, vertigo, and (at this point) extreme frustration for this tax paying community. The sound is similar to a washing machine on spin cycle- it is a mechanical, disruptive noise. It is extremely disappointing to see this continue this summer - Hideaway Village is primarily a seasonal community. To travel in summer traffic for a "relaxing weekend" and find your seaside neighborhood under acoustic siege is a testament to the same back-door, concealed negotiations that allowed for this travesty in the first place. As we wait for the results of the shadowy "acoustic test" being run by the accused party FGW- the sounds are impacting folks ability to lead their lives and unlike my family they are not just "weekenders" and have no escape. Increased heart rates, dizziness, nausea, vertigo, exhaustion, heart palpitations, sleep cycle disruption, inability to focus - that's the quality of life for this community today.

Karen Gibides	Morning Mist Lane	Louder	Annoyance	5/15/2018 15:45	This afternoon the turbines are in a perfect position to be annoying. There is a moderate southwest wind, so while I was outside enjoying the sunshine, the turbine noise almost blends in with the wind. Still loud, but not strongly defined. But inside the house, the windows seem to screen out the sound of the wind, and the whoosh of the turbines is obnoxious.
Larry McGrath	Lake Drive	Twice As Loud	Annoyance	5/18/2018 7:45	Turbines very loud
Larry McGrath	Lake Drive	Twice As Loud	Annoyance	5/18/2018 18:05	Turbines very loud
Joan Giard	Morning Mist Lane	Twice As Loud	Annoyance	6/12/2018 18:16	Wind SW 12MPH The noise has been horrible all day.
Karen Gibides	Morning Mist Lane	Twice As Loud	Annoyance	6/12/2018 17:30	This is absolutely unacceptable! We worked today, and arrived home to 'jet plane' like noise from the turbines. How can this not be considered a nuisance? Almost 3 hours later, and it is still obnoxious. The wind is from the southwest, by the way, a direction from which NO sound testing was done from our neighborhood.
Larry McGrath	Lake Drive	Twice As Loud	Annoyance	6/12/2018 15:30	Very loud noise from turbines
Larry McGrath	Lake Drive	Twice As Loud	Annoyance	6/12/2018 20:10	Extremely loud turbine noise
Larry McGrath	Lake Drive	Twice As Loud	Annoyance	6/13/2018 13:47	Very loud turbine noise- can feel it
Larry McGrath	Lake Drive	Twice As Loud	Annoyance	6/20/2018 10:00	Very loud turbine noise
Ian Davies	Buttermilk Bay South	Twice As Loud	Loud as hell ,relaxing on my deck and listening to Logan airport	6/27/2018 20:30	
Larry McGrath	Lake Drive	Twice As Loud	Annoyance	7/10/2018 18:00	Turbines very loud
Larry McGrath	Lake Drive	Twice As Loud	Sleep Disturbance	7/17/2018 4:15	Woke me up Turbines still loud at 6 am
Karen Gibides	Morning Mist Lane	Twice As Loud	Annoyance	7/16/2018 16:30	When I arrived home from work yesterday afternoon, I was greeted by the whoop of the turbines. This nuisance immediately creates tension for me, which is the opposite of what I want my home to be after a day at work.

Karen Gibides	Morning Mist	Twice As Loud	Sleep Disturbance	7/17/2018 6:02	This morning at 6:02am, I was awakened by the throbbing and whirring of the turbine closest to me as it geared up for the day. Again, not the way I want to start my day, my day off from work, when perhaps I could sleep in. And the noise continues to distract and annoy me as I work from home. We are enjoying a moderate southwest wind, and the turbine noise is horrible for us. Of course, this is not a wind direction that was ever sound tested in our neighborhood.
Karen Gibides	Morning Mist Lane	Twice As Loud	Annoyance	7/22/2018 12:00	On Sunday, July 22nd, the turbines were loud and obnoxious all day long. Horrible.
